

Homework 7

2017141493004 常家奇

Write a set of concrete scenarios for usability using each of the possible responses in the general scenario

Source	Stimulus	Artifact	Environment	Response	Response Measure
Users	Download a New App	System	Runtime	User Uses Application Productively	Within Two Minutes of Experimentation

How might usability trade off against performance

以用户满意度权衡,在可用性和性能在某个比值下,大部分用户满意即可.

Specify the data model for a four-function calculator that allows undo

记录用户每次使用 '=' 时用户的输入状态.
